HTML5, CSS3, JavaScript (ES6+)

UI & Styling

Tailwind CSS, Bootstrap, Sass

Tools

Git, GitHub, VS Code, Figma

Concepts

Responsive Web Design, UI/UX Best Practices, Web Accessibility

WORK EXPERIENCE

Frontend Developer

Rebash Digital

Jan 2025 - Jun 2026 | 1.5+ Years

- Engineered high-performance web interfaces using HTML5, CSS3, and JavaScript (ES6+), ensuring 100% responsive, mobile-first layouts.
- Modernized development workflows by integrating Vite and Tailwind CSS, cutting styling time and boosting build efficiency.
- Developed custom UI components (comparison sliders, interactive counters), enhancing user engagement through pixel-perfect execution.
- Translated Figma designs into clean, accessible code, maintaining strict design fidelity across all major browsers.
- Managed version control via Git/GitHub, collaborating effectively within team environments to deliver high-quality code.

KEY PROJECTS

E-Commerce & Digital Agency Platforms

HTML5, CSS3, JS, Sass, Bootstrap (Sneat), Tailwind, Vite

- Engineered a custom apparel platform with a high-fidelity dashboard and a JavaScript-powered "Quick Quote" system for real-time product updates.
- Developed a high-conversion agency landing page using Tailwind CSS, focusing on modern dark-themed aesthetics and pixel-perfect UI.
- Built modular, reusable components (navigation, sliders, counters) that improved scalability and site engagement across both platforms.
- Leveraged Sass and Vite to implement a structured theme system, reducing styling maintenance and significantly boosting load performance.
- Ensured 100% responsiveness and cross-browser fidelity, delivering seamless user experiences from marketing landing pages to checkout flows.

Education

Intermediate from Govt. Associate College for Boys | Shalamar Town, Lahore.

Courses

Web Designing | PSDF (Punjab Skills Development Funds)
